

Andaman & Nicobar Administration
स्वास्थ्य सेवा निदेशालय
Directorate of Health Services

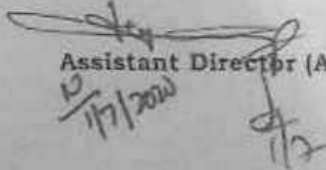

Port Blair Dated 2/10/2020

Circular

Of Late it is noticed that the staffs of this Directorate, while taking medical treatment and claiming reimbursement thereof are not fulfilling the documents required in terms of para (1) of App. (VIII) of CS (MA) Rules. Which communicate that "In emergent cases involving accidents, serious nature of disease etc. the treatment can be undertaken in private hospital in case no govt. or recognized hospital is available nearer than the private hospital. It is quite clear that obtaining of emergency certificate from the hospital is not enough. The documents must indicate that the patient was admitted in the said institution as it was a case of real emergency necessitating admission in a private hospital. And Controlling Officer/Deptt. has to satisfy himself the emergency stated on the merit of the case."

Hence, all the officials attached to this Department may strictly follow the above Rule provision while taking medical treatment in Private Hospital.

This has approval of the Competent Authority.

Assistant Director (Admn)
